AIM 650 Four-Gas Monitor with internal logging	\$1,250
B&K Noise Monitoring Terminal with model 2238F SLM	\$5,900
Bruel & Kjaer 4443 Logging Noise Dose Meter	\$2,000
GE Panametrics - 2-CH TX for PT868/878 Energy Calcs [-20 to 260C]	\$1,400
GE Panametrics - Two Channel 4-20 mA RTD transmitter	\$1,200
Hanna Portable Turbidity Meter with Case & Kit	\$700
Hioki Lux HiTester Digital Illuminance Meter	\$990
ISC Multi-Gas Monitor for CH4, O2, CO & H2S	\$2,500
Odalog NO2 & CO Area Monitor for vehicle-parks & IAQ	\$2,100
RAE Systems MiniRae 2000 Portable PID VOC Monitor	\$4,600
Robin Electronics TX90 Microwave Oven Leakage Detector	\$360
Schiltknecht Mini Air 2 Vane Anemometer	\$300
Soil Moisture Probe for ENV,WM20	\$100
Testo 445 Vane Anemometer with 16mm vane	FROM \$1,500
TPS Redox Electrode	\$100
TPS WP-84 Conductivity Salinity Temperature Meter	\$500
TSI 8020 Portacount Respiration Fit Tester with N95	\$14,500
TSI 8525 P-Trak Ultrafine Particle Counter	\$4,000
TSI 8710 DP-CALC Differential Micro Manometer	\$3,000
TSI SidePak SP730 personal sampling pump	\$1,250
TSI VelociCalc 100 mm Vane Anemometer with Volume Display	\$1,200
Unidata Open Channel Liquid Flow Logger	\$750
Vaisala WAA151 Wind Speed/Dir Transducer	\$650
X-Rite SP60 portable sphere color spectrophotometer	\$4,000

CHEMICAL & ANALYTICAL

Shimadzu VP Series Manual Injector Kit	\$250
--	-------

MEDICAL

Softlaser 800 mW Upgrade System	\$150
---------------------------------	-------

SECURITY

AVE Serial to Video Converter Including Video Mixer	\$500
Poptron CCD RF Camera and Receiver IR Lighting	\$125
Swise Surveillance Digital Camera	\$550

DATA ACQUISITION

Ashcroft 1000 Bar Pressure Transducer	FROM \$350
Fourier Microlog Temp/Hum Logger Kit with Wireless Cradles	\$2,750
Kulite 5000 PSI HighTemp Pressure Transducer- 260 Deg C	FROM \$650
Rotronic Temp/Humidity Transducer for DataTaker DT600/605	\$100
Stewart Buchanan 12, 10000 PSI Gauge	\$400
Teac 16 Channel DAT Instrumentation Recorder	FROM \$7,000
Tech-Rentals 4000, 6000 & 10000 KPA Pressure NATA Calibrated	\$350
Tech-Rentals CT Terminations for Hioki 8710, etc	\$100
Trafag 8891 4 Bar, 58 PSI, 4-20 mA, Pressure Transducer	\$175
Vega Bar 20 0 to 1 Bar Transducer with Display	\$100
Yokogawa DA100 -40CH 40 channel PC Data Logger	FROM \$3,750

GENERAL INDUSTRIAL TEST EQUIPMENT

Angelantoni CH340C Environmental Test Chamber	\$39,900
Fibrescope MTFS15-1000 1.5 mm x 1m Endoscope	\$4,750
Marconi Argus2 Black & White Thermal Camera	\$15,000
Max Hydrostatic Pump 2000 Bar Multiplies Pneumatic Pressure	\$2,250
Multipurpose Endoscope	\$300
Polaroid Microcam Microscope Camera	\$300
Stryker Borescope 4 mm diameter, 180mm length, 27.5 deg view	\$1,500
Trafag 1045 - DC Calibrator	\$250
Translock Brake Tester and Light Transmittance Meters	\$1,000
Yokogawa 2575 Digital Thermocouple Thermometer	\$100

PHYSICAL MEASUREMENT

A&D GR-202 Mercury Dual Range Analytical Balance	\$2,000
Mecmesin TW60 Torque Wrench	\$2,250
Mitutoyo 293-330 Digital Micrometer	\$250
Panametric NDT Epoch-LT Ultrasonic Flaw Detector	\$9,250
Protimeter Moisture Measurement System	\$1,250
Pruftechnik Magnetic Sliding Bracket	\$400
Sonatest Thickness Gauge	\$2,750

ELECTRICAL POWER TESTING

OMICRON Capacitance & Dissipation/Power Factor Test System

OMI,CPC100PTS - CPC100 Multifunctional Primary Test System
OMI,CP-TD1 - CP TD1 Tangent Delta & Power Factor Measuring Test Set

The OMICRON Transformer Diagnostic System provides automatic testing of transformer parameters in one portable system. The CPC100 is the main control unit and the CP TD1 unit is used for testing insulation conditions.

Applications

- CT Ratio, Polarity & Burden
- CT Excitation Curve & Winding Resistance
- Power Transformer Winding Resistance
- Tap Changer Continuity & Ratio per Tap
- Contact Resistance of HV Switching Device
- Insulation condition
- Leakage reactance

RF & MICROWAVE

Agilent N9340A Spectrum Analyser

AGI,N9340A-TG

The N9340A is Agilent's first handheld spectrum analyser specifically designed for field use and is ideal for use by the military and wireless service, TV and broadcasting providers. Optional: tracking generator and pre-amplifier.

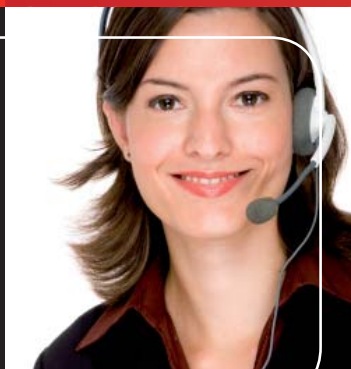

Applications

- Installation
- Spectrum monitoring
- Maintenance
- On-site repair tasks

To discuss all your test and measurement equipment needs, call one of our consultants today.

Test & Measurement
rental. sales. calibration.

All prices are exclusive of GST and freight charges.

Offer available while stocks last.

WARRANTY - 120 day warranty applies to all items excluding those sold "AS IS", or when a Rental Purchase Option is taken.

Product Highlights

PHYSICAL MEASUREMENT

Hilti PS 200 Ferroscan System

HIL,PS200 FERROSCAN

The new PS 200 Ferroscan System is a quick, easy-to-use portable system for detecting the position and diameter of reinforcement in concrete and measuring depth of cover.

It offers quick and easy scanning of large areas by a single person, through a system comprising of scanner, monitor and PC-based software.

Applications

- Verification of reinforcement
- Checking coverage
- Avoiding rebar hits

DATA ACQUISITION

Fourier DaqPRO

FOU,DAQPRO-2

The Fourier DaqPro is an eight-channel portable data acquisition and logging system, with graphic displays and analysis functions for measuring voltage, current and temperature in real-time.

Applications

- Plant condition monitoring & trouble-shooting
- Field monitoring stations
- Automotive testing
- HVAC
- Electricity transients failure detection
- Monitoring environmental conditions
- Food, drug and electronic equipment storage
- Water quality testing

DATA & TELECOMMUNICATIONS

Fluke DTX Compact OTDR

FLU,DTX-OTDR

This certification and troubleshooting tool is a full featured Optical Time Domain Reflectometer (OTDR) which snaps onto a DTX CableAnalyser. The DTX-OTDR allows you to save time by having one tool to test and certify the copper and fiber cable plant according to all industry standards.

Applications

- Shoot and analyse traces on multimode and singlemode fiber links
- Copper & fibre certification

ENVIRONMENTAL & OHS

Panametrix PT878 Flowmeter

PAN,PT878

The PT878 is one of the most powerful portable liquid flowmeters available. It can measure flow from outside plastic, metal or concrete-lined pipes non-intrusively, so there is no pressure drop, leaks or contamination.

Applications

- Manufacturing
- Food and beverage industries
- Petrochemical and gas companies
- Water supply and water treatment facilities
- Environmental analysis or monitoring

Also available PAN,PT878GC for measuring gas.

GENERAL INDUSTRIAL

Redlake Motionmeter

RED,MOTIONMETER

The MotionMeter is the first handheld, digital, slow motion camera to capture high speed events.

A lightweight and compact design provide maximum portability, with a user-friendly interface.

Applications

- Production line diagnostics
- Research, design and testing

ELECTRONIC TEST EQUIPMENT

Schaffner Modula-6100 Immunity Test System

SFN,MODULA 6100

Multifunction generator to simulate electro-magnetic field interference effects for immunity testing. Conformity with international, national and in house standards including the new IEC/EN standards. Generates Interference pulses such as burst and surge and power quality simulations.

Applications

- Research & design
- Manufacturing
- Compliance testing
